Chief,

I send a letter to you in April requesting your review of the proposed street names for a new subdivision being proposed off Institute Rd. We are in the final stages of preparing the definitive plans for this project, but the Planning Board's regulations require that we seek your approval of the street names prior to our submission to them. The names that we submitted are as follows:

Road A Audrina Lane

Road B Brooke Street

Road C Dylan Way

Could you please get back to me with your comments?

Thank You

Normand G
